

Who Should Attend

The ACHC Annual Meeting 2016 will showcase the latest basic, translational and clinical cancer and hematology research. It will bring together researchers and clinicians to share ideas and develop collaborations. This meeting will highlight the latest and more exciting discoveries in different areas of cancer and haematology research. In addition, it will provide a unique opportunity for researchers and clinicians to meet, interact, and share ideas. The meeting theme will be **“Translation of Cancer and Hematology Research-from Bench to Bed-side”**.
